

# ONE YEAR PLAN

God writes his word on the hearts of his children. As parents, we prepare and encourage the process by creating opportunities for it to happen through discipleship. By intentionally living out the six elements discussed in the book, we present our children’s hearts as a manuscript on which the Lord can write. There are many practical ways we can implement each element, but it may be helpful to have a planned approach.

Below is our One Year Plan. It allows us to focus on one element per week, repeating every six weeks over the course of a year. Print and customize the plan for your family.
